Stately and historic, the former Dexter Manor boasts the beautiful high ceilings, exposed beams and grandeur of an era gone by. This home which was once an 1800's Colonial Inn has been updated with modern features such as new roof, electrical, vinyl siding, energy-efficient windows, new kitchen and bathrooms - all of which combine to make it a wonderful place to call home. The central location in Westminister at the base of Academy Hill places you an easy stroll to all the charm this small New England town offers. Three garage bays plus tons of storage space, and a partially finished basement with billiard table are a man-cave dream. A cozy 3-season screened porch with a pellet stove is perfect for those Fall evenings. Come see the farmers porch and the field stone walls in this well-preserved, 4 bedroom 3, 200 square foot property.
