Welcome to luxury and grandeur personified! Million Dollar View included! Enter into the grand, marble foyer with a curving staircase. Go through to the spacious living room with soft uplighting and a fireplace to welcome you home. Your sophisticated dining room, again with uplighting, will showcase any gathering and the caterers will be able to use either the butler's pantry or chef's dream of a kitchen. The kitchen is huge and has an abundance of natural light, not least because the stunning, brick two-story fireplace in the family room, leading from the kitchen, is surrounded by windows as well as lit, built-ins. The study also enjoys built-ins and the flooring is sublime. All floors downstairs are gleaming hardwoods. Upstairs are four large bedrooms, all with their own bathrooms as well as a media room and recreation room, which has access to a catwalk overlooking the family room as well as to an outside balcony. This is the lifestyle you've dreamt of - enjoy it!
