

# 8 Harrison Street

Maynard, MA 01754

Delightful at every turn! Surprisingly open floor plan, high ceilings, heated sunroom, kitchen with granite, CENTRAL AIR (you will want it, come summer!) and GARAGE makes this a winner of the February market! Completely renovated just 10 years ago with all new electrical, heat, central air, roof, windows, kitchen and bath. Enter through the heated sunroom with slate flooring, hang your coat, kick off your shoes and enjoy this beautiful village colonial in the heart of one of Maynard's beloved neighborhoods. If you are a cook (or even want to pretend) you will love the granite kitchen. Everyone loves the open-concept first floor - have a dinner party, celebrate a holiday with extended family, or just lead a chill life style Upstairs are two spacious bedrooms with good closets and nicely updated bath with granite. Everyone hopes for a garage in their first home - this one has it!
