Wonderful single level living with in-law potential on 2.85 acres in a great commuting location in Sutton! This is not a drive by with over 1,800 sq ft of flexible living space! The main level features a cathedral ceiling family room that flows nicely into the eat-in kitchen with moveable island. Or go directly to the 3 season room because summer is coming quickly and this house has an amazing yard! The front room has large windows and hardwood flooring and can be a formal dining room, sitting room or formal living room. Generous sized bedrooms with hardwood flooring and closet organizers. The lower level is finished for a media room, rec room or additional living space with a second full bathroom. Storage area and utilities are tastefully separate from the living space. Recent updates include septic, well, heating, oil tank, roof, Basement 360, window and central a/c!
