Maynard, MA 01754

Spacious, elegant and serene: this stunning colonial is something special to behold. It's hard to decide which to love more - the wonderful fenced yard with patio, private conversation niches, and a general escape from a busy world or the gorgeous interior. Approach via the covered porch to view the gleaming wood floors, spacious renovated kitchen with abundant white cabinetry and soapstone counters, elegant yet welcoming dining room that beckons one out to the patio, large living room, full bath, and mudroom entrance off the driveway side of the house. On the upper two levels, you will find four well-proportioned bedrooms and a lovely updated bath with both a clawfoot soaking tub and step-in shower with sleek glass doors. The detached barn/garage provides plenty of space for your four-or-two-wheeled vehicles. The addition of split units on the first floor & master bedroom add welcome air conditioning in steamy summer months. New roof last year! Full basement. Gas heat. Winner!
