Gorgeous, well appointed home - INSIDE AND OUT! Wind down the private driveway to be welcomed by this beautifully landscaped 4 bedroom 3 1/2 bath colonial. The interior is just lovely with it's custom molding, hardwood floors, finished basement, and large bedrooms & baths. Tray ceilings and custom woodwork accent the living and dining room areas. The enormous open concept family room/kitchen/eat-in area includes a fireplace, large kitchen island, tons of counter space, and a fantastic industrial stove! Multiple French doors lead to the deck and beautifully finished patio/entertainment area. In the stunning master suite you will be impressed by the cathedral ceiling & two walk closets. The master bath "wows" with it's oversized shower and countertops. A bonus is the finished basement with a large bar area, wine closet, and room for entertainment (theater/pool table/game space/playroom). There is also space for a fitness area. It is incredibly versatile! A MUST SEE!
